This strategy document delivers a complete 30-day social media content plan for three distinct client brands across three major platforms. Each brand has been independently analysed — with platform-specific content pillars, posting frequencies, hashtag frameworks, KPI benchmarks, and practical optimisation tactics. All 90 posts are documented in the accompanying content calendar spreadsheets.

What's Inside This Playbook

01

Per-Brand Platform Strategies

Tailored audience profiles, content pillars, and posting frequency for each brand.

02

Hashtag Strategy Framework

Three-tier hashtag stacks: niche, mid-range, and broad reach tags.

03

Content Calendar Best Practices

Weekly theming, batch production, event alignment, and repurposing tactics.

04

KPI Benchmarks by Platform

Reach, engagement rate, follower growth, and format performance targets.

INSTAGRAM		Platform · Instagram
AUDIENCE	18–45 · Food lovers · Local community	
GOAL	Brand awareness, foot traffic, engagement	
POSTING	7 posts / week	
BEST DAYS	Wednesday, Friday, Saturday	
BEST TIMES	7–9 AM · 12–1 PM · 5–7 PM	
TOP FORMAT	Reels	

CONTENT PILLARS

Behind the Scenes	Menu Spotlight
Customer Love	Chef Stories
Seasonal Offers	

KEY HASHTAGS

#LocalEats	#FoodPhotography	#RestaurantLife	#Foodie	#BehindTheScenes
------------	------------------	-----------------	---------	------------------

PLATFORM INSIGHTS

- 1 Reels consistently achieve 2–3× the organic reach of static posts — prioritise video.
- 2 Save-worthy carousel posts (recipes, tips, guides) drive long-tail visibility.
- 3 Story polls and question stickers generate interaction and train the algorithm.
- 4 User-generated content (tagged customer photos) builds social proof faster than branded posts.

LINKEDIN

Platform · LinkedIn

AUDIENCE	28–55 · Professionals · High-income earners
GOAL	Thought leadership, lead generation, trust
POSTING	5 posts / week (Mon–Fri)
BEST DAYS	Tuesday, Wednesday, Thursday
BEST TIMES	8–10 AM · 12 PM · 5–6 PM
TOP FORMAT	Carousels

KEY HASHTAGS

#PersonalFinance

#WealthManagement

#FinancialPlanning

#Investing

#MoneyTips

PLATFORM INSIGHTS

- 1 Long-form text posts (1,200–1,600 characters) outperform image-only content by 40%.
- 2 End every post with a strong question or CTA — LinkedIn rewards comment velocity.
- 3 Document/carousel posts get pinned in feeds longer than any other format.
- 4 Avoid third-party links in post body — LinkedIn suppresses external URL posts.

FACEBOOK + INSTAGRAM

Platforms · Facebook + Instagram

AUDIENCE	FB: 30–50 · IG: 18–35 · Fashion-conscious shoppers
GOAL	Sales conversion, brand community, product discovery
POSTING	30 posts / month across both platforms
BEST DAYS	Thursday, Friday, Sunday
BEST TIMES	FB: 1–4 PM · IG: 11 AM–1 PM & 7–9 PM
TOP FORMAT	Instagram Reels

CONTENT PILLARS

Product Showcases	Style Guides
Customer Outfits	Behind the Brand
Promotions	

KEY HASHTAGS

#LinenAndCo	#SummerFashion	#OOTDStyle	#SlowFashion	#FashionBlogger
-------------	----------------	------------	--------------	-----------------

PLATFORM INSIGHTS

- 1 Cross-post strategically — Reels work on both; long text only on Facebook.
- 2 Instagram Shopping tags on product posts reduce friction from discovery to purchase.
- 3 Facebook groups and community posts dramatically outperform standard page posts.
- 4 User outfit tags and reposts are the most cost-effective content on fashion accounts.

Hashtag Strategy Framework

A structured hashtag approach multiplies organic reach without paid amplification. Every client calendar uses a three-tier stack designed to capture niche, discovery, and trending audiences simultaneously.

NICHE / BRAND TAGS

Lowest competition, highest conversion

#SpiceAndEmber · #ClearWealthFinance · #LinenAndCo

All posts

MID-RANGE TAGS

500K–5M posts · Best discoverability ratio

#FoodPhotography · #WealthManagement · #SummerFashion

Most posts

BROAD / TRENDING

10M+ posts · Use sparingly for reach spikes

#Foodie · #Finance · #Fashion

1–2 per post max

LOCATION TAGS

Critical for local businesses

#BangladeshFood · #DhakaEats (adapt to client location)

Local brands only

CONTENT-TYPE TAGS

Algorithm categorisation signals

#Reel · #CarouselPost · #FoodReel · #LinkedInCarousel

Match format

01

THEME YOUR WEEKS

Assign a content theme per week (e.g. Week 1 = Education, Week 2 = Promotion). Prevents repetition and maintains audience interest.

02

BATCH CONTENT CREATION

Produce all visual assets for the week in one session. Reduces creative fatigue and enables consistent quality.

03

PLAN AROUND EVENTS

Map national holidays, seasonal events, and product launches in advance. Content tied to events gets 30–40% higher engagement.

04

REPURPOSE STRATEGICALLY

A LinkedIn carousel becomes an Instagram swipe post. A Reel becomes a Facebook video. One idea, multiple formats.

05

TRACK AND ITERATE

Review post performance every 7 days. Double down on content types that exceed KPIs. Kill formats that underperform after 4 tries.

KPI Benchmarks by Platform

FARHAN SIDDIQUE
Social Media Strategy

06

METRIC	INSTAGRAM	LINKEDIN	FACEBOOK
Avg Reach / Post	5,000+	3,800+	2,500+
Engagement Rate	3–5%	2–4%	1–3%
Story Views	300+ / story	N/A	N/A
Follower Growth	+80 / month	+30 / month	+20 / month
Best CTR Format	Reels	Documents	Video posts
Hashtag Limit	15–20 tags	3–5 tags	2–3 tags
Post Lifespan	24–48 hours	24–72 hours	3–5 hours

Note: Benchmarks represent industry-average targets for 2025. Actual performance varies based on account maturity, content quality, and audience characteristics. Review every 7 days and adapt.
